

## **Certificate of Strain Deposit for the Purpose of Valid Publication of a New Taxon according to the Bacteriological Code**

This notice confirms that on this \_\_\_\_\_, the type strain of  
\_\_\_\_\_ is held by the U.S. Department of Agriculture Agricultural  
Research Service (ARS) Culture Collection under the number:

\_\_\_\_\_

The strain has been stored using standard long-term preservation methods and has been checked for viability. It is available through the publicly accessible holdings of the ARS Culture Collection and does not have any proprietary restrictions placed upon it. It will be included in the ARS Culture Collection online catalogue after the depositor has notified the Collection regarding the publication of the above strain number.

The preceding information serves only as confirmation that the above named strains have been deposited in the ARS Culture Collection and that they will be made available to the international scientific community in accordance with the Rules of the Bacteriological Code (1990 revision) as revised by the ICSP at the plenary sessions in Sydney and Paris.

Mr. James L. Swezey  
Collection Manager
